Agenda

Time	Topic	Topic Lead	Scope of Discussion
7:00 / 1 min	Welcome to the Google Meet electronic meeting	Pres Gerald Checco	Trustees
7:01 / 2 min	Approve prior month's meeting minutes	Sec. Mike Roller	Trustees
7:03/ 10 min	Freestore Foodbank- Get Covered initiative	Sara Miller	Trustees/Comm.
7:13/ 15 min	Smart Infrastructure Initiative - MOTION	Kevin Leahy	
7: 28 / 2 min	Treasurer's Report	Treas. Tim Maxey	Trustees/Comm.
7:30 / 15 min	Police Report	P.O. Shawn Dent	Trustees/Comm.
7:45 / 5 min	CRC Report	Collin Fitzpatrick	Trustees/Comm.
7:50 / 5 min	Public Library Report	Dir. Jeanne Strauss DeGroot	Trustees/Comm.
7:55/ 5 min	Memorial Day Picnic	Pres Gerald Checco on behalf of Barry Gee	Trustees/Comm.
8:00 / 5 min	Membership Committee (Outreach/ Brochure)	Robert Hamberg	Trustees/Comm.
8:05 / 10 min	Discussion concerning remote vs. in-person meeting		Trustees/Comm.
8:15 / 5 min	Thanks Giving	Board	Trustees/Comm.
8:20 / 10 min	Trustee, Committee and Liaisons Announcements	Pres Checco	Trustees/Comm.
8:30 / 15 min	Community Questions/Concerns	Pres Checco	Trustees/Comm.
9:00	Adjournment	Pres Checco	Trustees/Comm.

CTM Minutes - Group: CTM Board Meeting

By Mike Roller, Secretary

Date: April 4, 2022 7:00 pm

Location: Online meeting via Google Meet. Invitations and links sent prior to the meeting for all to connect and listen in.

Board Members Present (11): Jan Brown Checco, Gérald Checco, Robert Hamberg, Mary Pat Lienhart, Nestor Melnyk, Mike Roller, Jayme Ritter, Genet Singh, Rachel Wells, Monica Windholtz

Absent: Molly Gray, Naghma Malik, Tim Maxey, Zeeshan Tayeb

A quorum is present, meeting called to order at 7:00 pm by Gerald Checco. (U) below will represent a unanimous vote.

Public Attendance: (25) Adam Hennie, Marilyn, Collin Fitzpatrick, Marianne Brunner, Margaret Reich, RuthAnn Bumiller, Sara Leah Miller, Todd Ploehs, Carolyn Miller, Catherine Hamilton Hicks, Jarvis Graham, Julia Bonfield, Kevin Leahy, Eric Urbas, Tony McDaniel, Shawn Dent, Joyce Rich, John Osterman, Jeanne Strauss DeGroot, Chuck Lohre, Mike Elovitz, Phone #s

Welcome to our Electronic Meeting on Google Meet – Advice for participation, reminder about remote meeting etiquette. Invitation of new applicants to the Board, contact the CTM email at contactctm@cliftoncommunity.org

March Meeting Minutes – Mary Pat Lienhart moves to approve, Rachel Wells seconds (U)

Freestore Foodbank “Get Covered Initiative” — Sara Leah Miller. Families First Coronavirus Act has prevented states from removing Medicaid during the pandemic. As this will expire tentatively April 16, many people previously covered might find themselves without coverage. Anyone with Medicaid or food assistance should contact Hamilton County services and keep their contact information up to date. The initiative can help people in-person, over the phone, virtually via Zoom, or at the Freestore Foodbank. All services are free. Visit <http://getcoveredohio.org/> or call 1-833-628-4467

Smart Infrastructure — Kevin Leahy. Asks CTM to send a letter to Ohio Public Utilities Commission in support for infrastructure recommendations preparing for climate change. Two key elements are (1) Lowering CO2 via grid upgrades and (2) adapting to severe weather conditions by moving utilities underground. This also beautifies the neighborhood and can increase property values. Cost would be spread out across all community members' utility bills over 20-40 years. Kevin requests CTM send a letter of support for the program to help initiate it.

Rachel Wells asks if Clifton's power lines are linked to the hospitals, and would therefore be high priority for Duke. Kevin doesn't believe Clifton's grid has been hardened due to its proximity to the hospital in the past, so this doesn't appear to be the case. Questions about who would be considered in the process, since there is a range of incomes in the community. Kevin responds that the process is not yet defined and Clifton can help define this. Question on the burning of power lines and their impact on trees (roots in conflict with lines). Kevin responds that, in general, underground systems are more robust and problems are less frequent. Trees can be sometimes be a problem but not significant. Repairing can also take more time when underground.

Jayme Ritter asks about solar infrastructure co-ops. Duke did not list it as an option, but the community could request it. Kevin shares his preference for large, out of town solar installations which have the lowest cost vs. rooftops and smaller installations. Duke is no longer in the business of energy generation in Ohio and only maintains the wires and pipes.

Mary Pat Lienhart asks about the potential to do things in conjunction with telephone and internet lines. Kevin shares that this could be part of the project request to coordinate and underground everything between the multiple companies (e.g. Cincinnati Bell).

Multiple trustees ask that we table the motion in order to have more time to discuss and research. Kevin shares that there is no specific urgency, and adds that the letter of support doesn't obligate Clifton to anything specific today. The main goal of the letter is to show support for enabling the program which allows communities to be involved in the future. Jan Brown offers to use the Chronicle to report on this.

Trustees will continue to get more information from Duke and the community before formalizing the letter. CTM members can reach out to Kevin with questions:

kevin.leahy@fuse.net

Treasurer's Report — Tim Maxey. [See Report](#)

Police Report — Officer Shawn Dent. One violent crime last month, auto thefts and thefts from autos continue to be a concern. We had 28 property crimes, compared to 24 last month. District-wide speeding project has been started. Contact Officer Dent at shawn.dent@cincinnati-oh.gov

Clifton Recreation Center Report — Collin Fitzpatrick. Spring break camp has finished up. Monday evening is fencing, which is a CRC activity going strong for 30 years. Carpool Cinema will continue, cost is \$5 per vehicle supporting CCAC. 68 students have registered for summer camp, with a goal of 78. Exploring partnerships with Roads, Rivers, and Trails. Planning next series of pottery classes—beginning, intermediate, and open session. Extreme hip hop dancing is on Friday, \$10 per person + membership. CRC also has a new roof! Contact Collin at collin.fitzpatrick@cincinnati-oh.gov. CRC is open Monday through Friday 7AM–8PM.

[See report](#)

Library Report — Jeanne Strauss-DeGroot. Covid restrictions and programming capacity limits at library have been lifted. Upcoming events: Pauletta Hansel poetry workshops on 4/12 4:30-5:30 followed by an outdoor open mic session 6:30-8:30. April 6 4:30-5:30 office hours with Pauletta Hansel. Children's activities are available for registration on the website. LGBTQ event "Lemonade on the lawn" [See Library report.](#)

Memorial Day Picnic — Gerald Checco reports on behalf of Barry Gee. Planning meeting started this month and will continue in April. Good partnership with Mt. Storm Advisory Council. Plan is to do the traditional parade on Middleton/McAlpin, costume contest, grill including vegetarian options. Registration table for CTM. Will be shared across all outreach tools we have. [See picnic report.](#)

Membership Committee — Robert Hamberg. Flyer has been created to generate awareness and interest in CTM by sharing information about Clifton's 140+ businesses and services. Costs of printing and mailing will be sponsored by Uptown Consortium and CBA. [See flyer.](#)

Successful mailer campaign was sent to people with expired memberships, bringing back approx. 50% of expired members. Membership committee meetings are on Thursdays the week following the monthly CTM meeting.

Discussion on Remote vs. In-person Meeting — Brendon Cull offers that virtual meetings are highly effective and inclusive. Rachel and Robert add that hybrid meetings should be maintained. Jan added that in-person interactions can happen in other ways—through committees and community activities.

Thanksgiving:

- [see Pres. Checco Report](#)
- Jayme Ritter thanks the large group of neighbors that helped plant pots along the business district. Next planting will be mid-May.
- Jan thanks Jeff Gelkey who has brought an opportunity to gather millstones on Dr. Henderson's property. John Osterman is organizing a group on Sunday at 11 to harvest them and move them to the plaza bamboo bed. A sign will be added to explain them. [See report.](#)

Trustee, Committee and Liaisons Announcements: None

Community Questions/Concerns:

Rachel suggests we consider setting expectations for policy-oriented topics that may take multiple meetings, for example a "first read" and "second read." Mary Pat Lienhart asks that a committee be responsible and Jan suggests it could be the Community Plan. Nestor suggests we try to assign topics to committees before coming to the full board. Brendon will connect with Duke executive John Juech about the topic and will collect questions.

Catherine Hamilton Hicks shared background on the parklet outside of Ludlow Wines. Given their broader adoption downtown now, she is asking for CTM's consideration to revisit the opportunity to close part of Clifton. The idea is to close Ormond to Telford for 48 hours. Gerald recommends that this go to the Transportation committee, which meets the third Mondays of each month.

Motion to adjourn at 9:00 pm (U)

Respectfully submitted,
Mike Roller, Secretary

Climate Focused Investment for Clifton

1

Kevin Leahy
@kevin.leahy@fuse.net
April 4, 2022

Discussion Points

2

- The ask
 - Climate recommendations for communities
 - Possible means to implement
 - Current status
 - Time horizon - this is a long term project
 - The ask (again)
-
- Time permitting - envisioning the possibilities

Tonight's ask

3

- No commitment, no money. Just expression of community support for the concept via ...
- CTM letter to the Ohio Public Utilities Commission to approve a public program for neighborhoods like ours

Communities & Climate Change-Lower CO2

4

- Lower CO2 via electrification
 - requires grid upgrades
 - Electric vehicles - require charging options
 - Heat pumps or hybrid systems for heating
 - LED deployment w/smart systems

*Electric system decarbonizing

Communities and Climate Change-Adapt

5

- Undergrounding utilities = reduces power outages from severe weather
- Healthy tree canopies - enabled by end of utility tree trimming
 - shady streets = cooler / more walkable neighborhood)
 - Lowers cooling demand for energy
 - Captures CO2
- Beautify neighborhood, increase property values

Howell

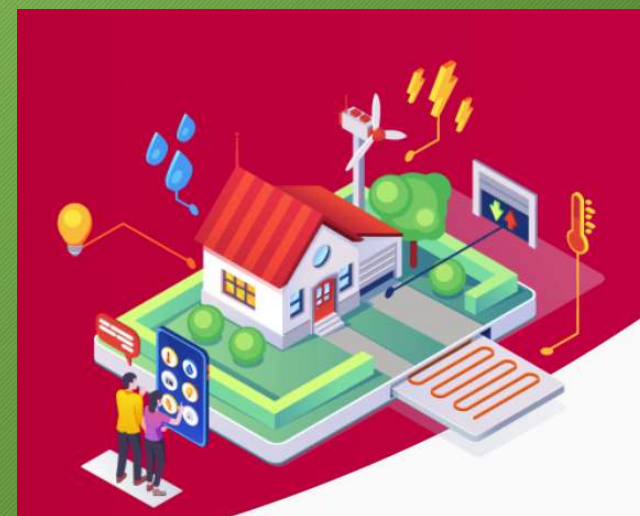

Dunore

Mechanism: Duke Energy's Proposal

6

- Community requests project-Duke executes
 - Recovers cost via fixed monthly charge to community's electric customers over 20 to 40 years (≈6700+ Duke households/businesses in Clifton)
- Options:
 - Community directed undergrounding of utility lines
 - Electric vehicle charging infrastructure
 - LED lighting conversions/upgrades
 - “Smart City” ready hardware deployment
 - Beautification of existing utility hardware

Program DOES NOT YET EXIST

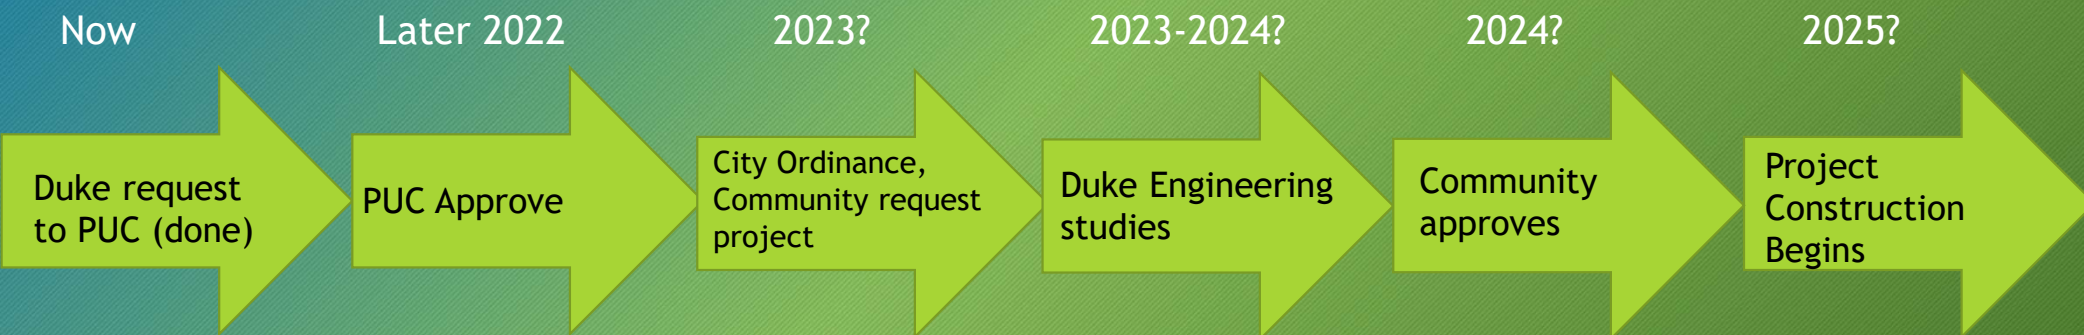

7

- Duke Energy submitted the idea for PUC approval last fall as part of the company's rate case.
- Called "Rider CDI" (Community Directed Investment). Its approval does not impact other parts of the rate case.
- A community letter of support for Rider CDI could ensure the rider survives the rate case (less likely to be traded away or deleted).
- If approved, gives Clifton the choice to request new energy investment/services.

This is a SLOW process - likely several years

8

Tonight's Ask/Proposed Next Steps

9

- CTM send letter of support to Ohio Public Utilities Commission to approve program offer
- Later:
 - Monitor commission's decision
 - Form taskforce to explore areas of initial focus - link with experts
 - Prioritize potential projects

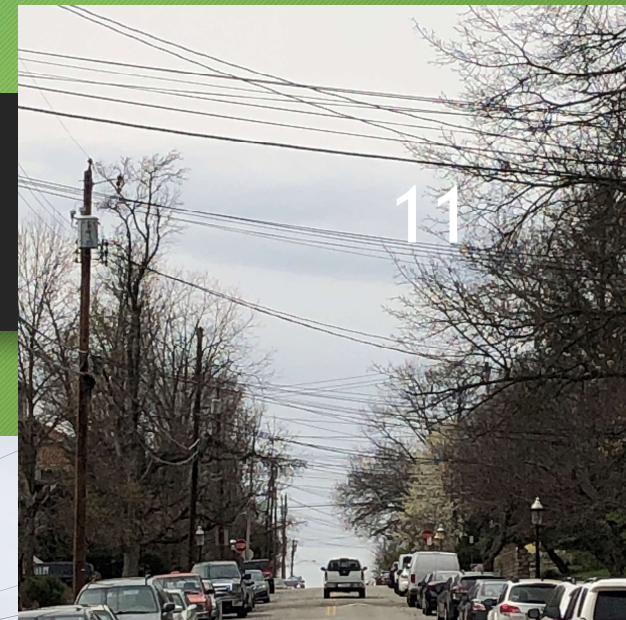

Appendix: Things to Dream About (for now)

Public Utilities Commission of Ohio
(Sent Electronically)

Ohio PUC

DRAFT

Subject: Duke Energy Rate Case, numbers 21-887-EL-AIR,
21-888-EL-ATA, 21-889-EL-AAM

Dear Commissioners,

Clifton Town Meeting is the official community council of the Clifton neighborhood, in the City of Cincinnati. It has come to our attention that in the recent Duke Energy rate case, the company has proposed a new program in the Rider CDI, Community Driven Electric Investment. Our understanding is that this program allows a community to request investments to upgrade the existing electricity infrastructure in their community, with the cost paid by Duke Energy customers in the community via a fixed charge added to their monthly electric bill.

As elected representatives of the Clifton Town Meeting, we are writing to request that the Commission approve this particular rider, allowing Duke Energy to implement this program, with the condition that Duke not be allowed to charge more than necessary under this program to earn the normal rate of return for investments in distribution infrastructure inside their Ohio service territory.

Thank you for your attention to our request. If you have any questions, please feel free to contact me at ctmpresident@cliftoncommunity.org.

Gérald Checco
President

CTM Updates April 2022:

1. Programing capacity limits are being lifted at the Library.
2. Upcoming events in the Clifton branch include:

We are celebrating National Poetry Month and hosting the following events:

Library Foundation Writer in Residence Pauletta Hansel will be at the Clifton branch for a couple poetry workshops on April 2nd (1:30 to 2:30) and April 12th (4:30-5:30). She will also hold office hours on April 6th from 4:30-5:30. Registration is required.

The poetry workshops will be followed by the 24th annual *Poetry in The Garden* event on the branch lawn (3-5 PM on April 2nd and 6-8:30 PM on the 12th): Local poets will read their poetry and there will be an open mic session.

The first couple Big Kids Explorer's Program were very successful and we will continue to offer them on the first Saturday of every month at 11 am.

On Saturday April 30th, The Clifton Branch will also the annual Lemonade on The Lawn program from 1 to 4 pm, outside. The Lemonade on Lawn program invites everyone in the community to socialize with LGBTQIA + communities and allies. Several health and wellbeing organizations and community services will be represented.

A Short History of Clifton

Clifton was incorporated as a village in 1850. In the nineteenth century, mansions set in extensive grounds of gardens, parkland and woodlands dominated the northern section of Clifton, farther from the city. The city of Cincinnati annexed Clifton in 1896.

A rich tradition of Civic Engagement

Clifton Town Meeting (CTM)

Established in 1961, CTM is Clifton's community council and the official representative of the neighborhood. CTM publishes a quarterly newsletter, Clifton Chronicle, manages the Off Ludlow Gallery, and works with the city of Cincinnati on issues such as zoning, transportation, and beautification.

For information:
contactctm@cliftoncommunity.org

Clifton Business Association (CBA)

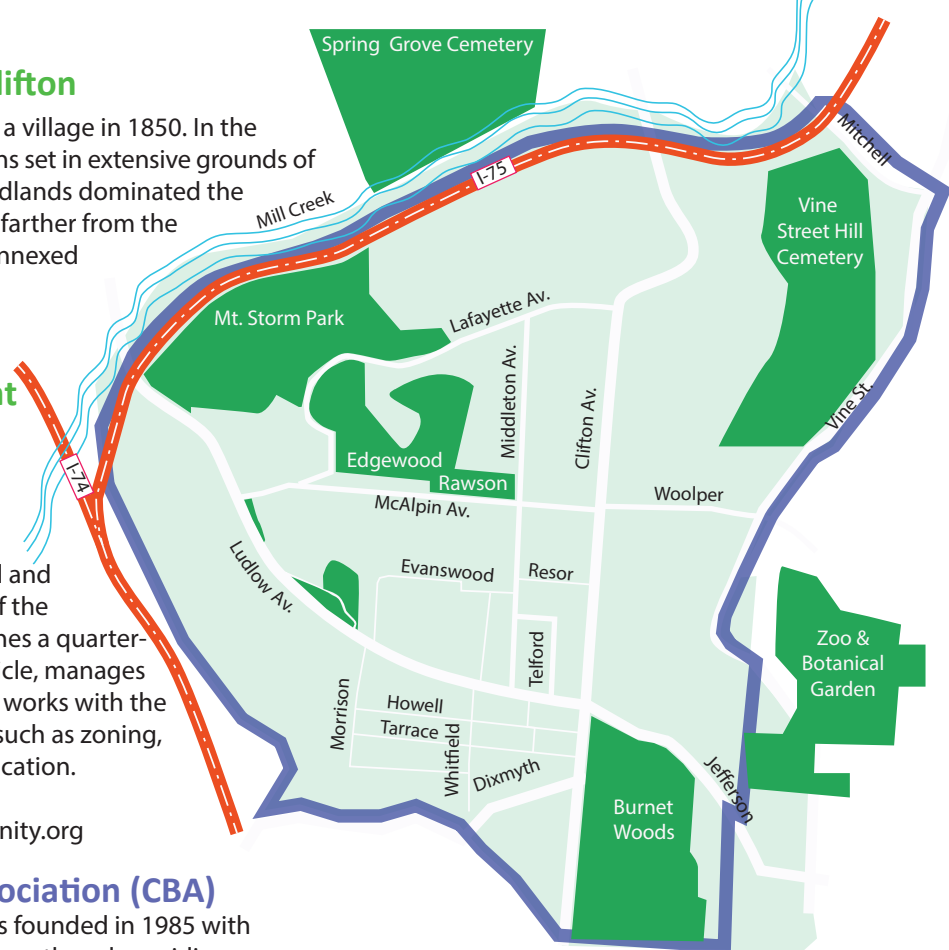

CBA (in its present form) was founded in 1985 with the purpose of promoting growth and providing a voice for merchants and professionals that conduct their business within the Clifton Business District (CBD). CBA works to be a resource of information for the CBD and to improve and enhance the Clifton community and neighborhood through greater cooperation and collaboration amongst businesses, organizations, and individuals.

For information:
contact@cliftonbusiness.org

Clifton Community Fund (CCF)

Founded in 2004, CCF is an endowed fund under the financial management of the Greater Cincinnati Foundation whose earnings support public improvements in Clifton. CCF's mission is to preserve, beautify, and enhance Clifton, enriching its culture and quality of life.

For information:
CliftonCCF@gmail.com

Clifton Cultural Arts Center (CCAC)

CCAC opened in 2008 as an inclusive, multi-disciplinary community arts center for children, families, adults and seniors, as well as established and emerging artists, educators, and art enthusiasts. CCAC offers classes, workshops and summer camps, free live performances, art exhibitions and creative placemaking opportunities in Clifton and surrounding neighborhoods. Up to date information, including a list of our current programs, events and exhibits, can be found online at www.cliftonculturalarts.org.

To contact CCAC: info@cliftonculturalarts.org or (513) 497-2860

MEMBERSHIP COMMITTEE UPDATE

Clifton Town Meeting

P.O. Box 20042
Cincinnati, OH 45220

Board of Trustees 2022

Gérald Checco
President

Nestor Melnyk
Vice President 1

Jan Brown Checco
Vice President 2

Tim Maxey
Treasurer

Michael Roller
Secretary

Trustees
Brendon Cull
Molly Gray
Robert Hamberg
Mary Pat Lienhart
Nagma Malik
Jayme Ritter
Genet Singh
Zeeshan Tayeb
Rachel Wells
Monica Windholtz

Background

At its February meeting, the Membership Committee decided to:

1. reach newly expired members through a direct mail, including a return envelope.
2. create a brochure, as an element to recruit members.

Implementation

1. Direct Mail:

We sent 48 direct mail pieces to 67 members (some family memberships). As of today, 36 out of 67 members have renewed. One member indicated that they no longer reside in Clifton. The Membership Committee has decided that the success of this direct mail warrants that we continue this outreach by sending a direct mail once a quarter that will include the members who have not renewed from the previously sent direct mail.

2. Brochure:

The brochure attached was designed. Uptown Consortium and Clifton Business Association agreed to cover the costs of printing 6000 copies and direct mailing to our members. The brochure will then be available at CTM events (Memorial Day Picnic for example), Clifton businesses and other outreach initiatives.

Conclusion

This report is for information. No Board action is necessary.

MEMORIAL DAY PICNIC

Reporting on behalf of Barry Gee – Event Manager

First planning meeting took place on March 23. The next one is scheduled for April 6.

Thanks to Mt. Storm Advisory Council for partnering for this event, it helps us with reservation fees and coordination with the Park Board.

Details need to be finalized but in general:

- Parade starting at Middleton and McAlpin
- Potential pre-recorded marching music
- Pet parade and costume contest
- Patriotic costumes encouraged
- Bikes and strollers decorated for parade
- Live music at Mt. Storm
- Burgers, sausages, vegetarian offerings, drinks...
- Table for membership outreach
- Creating of a poster for the business district and all social media, schools, etc, Mailchimp...

Halfway down the northern curve of Clifton Avenue resides Dr. Thurman Henderson in “Shady Side,” a splendid Italianate mansion built in 1851 by Joseph Clarkson Ringwalt, successful Cincinnati merchant. The hilltop residence is embraced by woodland which, in the 19th century, included a “pretty lakelet” formed by damming the ravine behind the home. Replete with select trees and foliage, the property enjoyed raves in Sydney Maxwell’s 1870 publication Suburbs of Cincinnati. One can imagine the Ringwalts’ pleasure, swimming for over fifty-five years within their private fairyland forest!

Today, Dr. Henderson – a renowned physicist, inventor, engineer and scientist – continues to enjoy vestiges of his property’s past grandeur, and was delighted to recently understand details that formerly eluded comprehension - dozens of 24 to 40 inch-wide round and flat stones, all hiding in plain sight throughout the grounds. Eighteenth century millstones!

Research suggests these probably came from the 1791 Irwin Mill – a grist mill built along the Mill Creek at the bottom of Clifton Avenue (called Irwin Mill Road until 1848.) The stones are classified as “edge-roller” type, engineered to roll on their wide edge surfaces around a large flat stone. Connected to a center drive shaft, the wheels rolled in circles, crushing grain spread beneath them. The grooves on the edges facilitated the movement of ground grain out to a deep circular pan where the flour was collected and bagged. More than one millstone could be driven by the center shaft, powered by gigantic overhead wooden gears which were rotated by a waterwheel turning in the creek water’s flow. In periods of drought, the hydraulic flow was assured by a nearby “mill pond” via water channeled downhill in a “race run” (wooden trough). Such simple grist mills were typical in wilderness times when most millstones in America came from France or England, perhaps accompanied by the huge wooden gearing which allowed frontier mills to be constructed quickly.

Much to the disappointment of William Irwin, his mill was eclipsed by the 1830’s when the Miami & Erie Canal came through the valley. Among the ruins would have been piles of used millstones, just waiting to be discovered by Mr. Ringwalt and recognized for their potential as pavers. Scores of them were set in place throughout his estate, quite practically as stepping stones down into the ravine through the woods on the way to the pond. The millstones now protrude irregularly from the ground, shifted by 150 years of erosion - mysterious huge stone “donuts” hypothesized by our theory as “nineteenth century upcycling.”

Thanks to the generosity of Dr. Henderson, visitors to Clifton Plaza and Mt. Storm Park (to be verified) can now view and touch some of these millstones, and imagine them at work in 1791, grinding flour to bake the bread of Clifton’s first farmers. Could these be our community’s oldest relics?

Background

The Neighborhood Support Program (NSP) is a grant from the City of Cincinnati, allocated each year to the neighborhoods. Each neighborhood receives the same amount, regardless of size.

The projects for the grant need to be voted on by the residents of the neighborhood, regardless of if they are members of the local community council. This year's grant amount is \$7,638

CTM vote

CTM solicited grant ideas at meetings in January and February, as well as through a mailing to its 1200 (approximately) MailChimp mailing list and on social media. On February 28, 2022, three submissions were received with a total of \$7,638. CTM held a special meeting to discuss the projects submitted, asking if other project(s) were being submitted from the floor. No additional proposal came from the floor. Vote took place using a Google form. The three submissions were selected to move forward. They are:

- Installation of Security Cameras at the Clifton Plaza
- Sponsorship of Carpool Cinema (CCAC)
- Contribution to the Summer publication of the Chronicle

Lessons from 2021

A similar process took place in 2021. The NSP grant requires that funds be spent between the date of the fully executed contract and August 31. The City Administration could not fully execute the contract until July 1. About half of the request was for sponsorship of CCAC events that happened before July 1. In addition, our project to purchase a "speed indicator" sign could not be fulfilled by August 31 due to supply chain issues (equipment fabricated overseas).

Consequently, none of 2021 CTM projects were actually funded last year. Understanding the inability of the city of

finalize contracts expeditiously, the City decided this year to contract the management of the funds to Invest In Neighborhoods (IIN.) On March 22, 2022, I presented the NSP proposals to IIN and our proposals were voted unanimously by the review panel assembled by IIN. Our contract was executed that night. We received the check on March 29, 2022.

Implementation/Spending of the Grant

- Sponsorship of Carpool Cinema: A check of \$1,500 will be sent to CCAC upon receipt of an invoice
- Security Cameras: The installation is scheduled for April 18, 2022. Between the proposal and receiving the grant, costs increased by \$180. I will write a change order for the grant and reduce the Chronicle by the same amount. All bills will be paid by the end of April.
- Summer Chronicle: Amount has been reduced by \$180 (see above). Invoices for printing and design will be received and paid by mid-May.

Upon full spending, I will report back to IIN.

Conclusion

This report is for information. No Board action is necessary.

Gérald Checco
NSP Administrator

CITY OF CINCINNATI NEIGHBORHOOD STREET CALMING PROGRAM MISSION

The City of Cincinnati shall make every reasonable effort to improve the environment and livability of its residential neighborhoods. This effort depends in substantial part on responsible traffic management of its residential streets. If responsible traffic management does not occur, Cincinnati neighborhoods will lose their separate charms. One of the attractions of Cincinnati as a place to live and work is the unique characteristics of various neighborhoods. This quality is also attractive to incoming businesses and their employees. Without responsible traffic management, these neighborhoods can simply become part of an impersonal regional transportation system.

The City is committed to the effective use of a Neighborhood Street Calming Program (NSCP) that will be administered through a cooperative effort of City government and the citizens of the City. The City's efforts will be to provide safe, sensitive and effective solutions to documented problems or deficiencies in the neighborhood street system without creating an adverse impact on the surrounding areas.

I. INTRODUCTION

Cincinnati places a high value on neighborhood livability, as reflected in these policies. Although no one can precisely define livability, it certainly encompasses some of the following characteristics:

- The right of all residents to feel safe in their neighborhoods.
- The opportunity to interact with one's neighbors without distractions from traffic or threats from passing vehicles.
- The opportunity to experience a sense of home and privacy.
- A sense of community and neighborhood identity and pride.

II. OBJECTIVES OF NEIGHBORHOOD STREET CALMING PROGRAM (NSCP)

Use of funds relative to street calming shall:

- Improve neighborhoods' livability by mitigating the impact of vehicular traffic on residential neighborhoods.
- Promote safe and pleasant conditions for residents, pedestrians, bicyclists and motorists on neighborhood streets.
- Encourage citizen involvement in neighborhood traffic management activities.
- Make efficient uses of City resources by assigning priorities with diversity, balance and need as criteria.

III. POLICIES

The following policies are established as part of the Neighborhood Street Calming Program (NSCP) for residential streets:

- Application of this program shall be limited to local streets with less than 5,000 vehicles per day,
- Normally, through traffic should be routed on the streets contained in the City's Throughfare List.
- Emergency vehicle access shall be preserved.
- The City shall employ practices and devices to achieve the NSCP's objectives. Traffic management devices include traffic circles, speed humps, diverters, median, curb extensions and others. These solutions may create areas that will need to be maintained by either the adjacent property owner or a community group. These policies may induce donation of property or require acquisition of property where appropriate. These devices will also include consideration of the livability of the neighborhoods affected and as stated above.

To implement the NSCP's policies, City officials will:

- Seek active citizen participation through communication with the citizenry and appropriate groups;
- Follow applicable codes and guidelines and;
- Make publicized and reasonable tests before installation, when needed.

IV. NEIGHBORHOOD STREET CALMING IMPLEMENTATION PROCESS

A. Project Request

- Receive requests from citizen, community group, or petition from residents of a particular street.
- These requests will be responded to with a copy of the Neighborhood Street Calming Program (NSCP) booklet, and a valid majority petition to analyze the street will be requested (if one was not originally supplied). The name and phone number of a contact person (who will generally be responsible for circulating petitions) will also be requested. The response will include a sample petition (Appendix 3).
- If a preliminary review shows that a hazard exists that must be immediately addressed, the City may take necessary action without following these steps.

B. Petition to Evaluate & Preliminary Analysis

- The petition must be signed by 50 percent of the residences on the affected street.
 - Only one signature per residence will be accepted.
- Upon receipt of a valid petition to evaluate the street, City staff will conduct an analysis of accidents, speed, and traffic volumes. City staff will report the results of this analysis to the contact person. Volume of requests received, and weather conditions may impact city response time.

C. Citywide Prioritization List

- City staff will work with citizen(s) to determine the most appropriate traffic management devices. Consideration of business impacts will also be considered as well as identification of non-owner-occupied type housing such as multi-family dwellings and apartment buildings. Public involvement may be necessary, if deemed appropriate by the City, Community Council or residents.
- If a street closure is recommended, approval through the official Street Closure Process will be required.
- The City will notify the contact person and the appropriate community council of the data results.
- Once all the data is collected the street will be added to the Citywide Prioritization List.
- Priorities for implementation, funding and action shall be determined by using the input of the scoring criteria as outlined in Section VI.

V. OUTLINE OF THE PROCESS FOR THE NEIGHBORHOOD STREET CALMING PROGRAM

1. Citizen and/or community group submits request.
2. City staff sends NSCP booklet with petition requirements.
 - Approximately 1 week
3. Citizen(s) gathers signatures for petition and returns to City staff.
4. City staff verifies the petition, notifies citizen of approved petition, and coordinates data collection (speed, accidents, volume).
 - Approximately 1 month
 - May be longer during colder months
5. City staff notifies the Fire Department for their input into potential changes on the affected streets.
 - Concurrent with Step 4
6. City staff analyzes data, prioritizes street citywide, and notifies citizen of results.
 - Approximately 1 week after data is received
7. City staff consults with the citizen to select appropriate traffic calming measure, if necessary.
8. The Street is added to the Citywide Prioritization List and the appropriate community council is notified.
9. Depending on calming technique chosen additional maintenance may be required. The City may require either acknowledgement or a formal agreement for the additional maintenance prior to installation.

NOTE: Process can be stopped for a variety of reasons along the 10-step path.

- Step #4 - not a qualified 50 percent majority petition
- Step #5 - Fire or Police Department rejects proposal
- Step #7 - residents cannot agree among themselves on the appropriate traffic calming measure
- Step #8 - community group objects
- Step #9 - agreements not signed
- Anytime - funding sources depleted

VI. PRIORITY POINT SYSTEM

The following information is used to develop a numerical score for each NSCP project request. Scores are used to rank requests on a citywide basis. A high-ranking, available budget, cost effectiveness and other factors are used to determine which projects will proceed to the implementation stage.

A. ZERO-CAR HOUSEHOLDS

Any street with more than 20% zero-car households, as identified by census data, will receive points in this category.

40 points

B. SPEED

Points will be awarded based on the number of vehicles speeding using the following formula:

$$([\# \text{ of vehicles } 1\text{-}5 \text{ mph over speed limit}] * 0.25) + ([\# \text{ of vehicles } 6\text{-}10 \text{ mph over speed limit}] * 1.0) + ([\# \text{ of vehicles } >10 \text{ mph over speed limit}] * 3.0)$$

C. ACCIDENTS

Accidents over the last three consecutive years, considering number, type, and severity relative to streets of similar character.

D. SCHOOLS & OTHER PEDESTRIAN GENERATORS

Forty (40) points for each private or public elementary school on the subject street, individual pedestrian-oriented facility, such as elderly housing or a park on the subject street, or within one-half mile of the subject street. For pedestrian-oriented facilities grouped together on the subject street, up to forty points for the group.

80 points maximum score

The Citywide Prioritization List will be updated as requests are received to allow the inclusion of new projects and the removal of those projects that have been completed. The Citywide Prioritization list can be found on the City website: <https://www.cincinnati.gov/dote/safety/street-calming/>. Data collected will be considered valid for three years, therefore once a street is added to the Citywide Prioritization List, it will not be re-evaluated for three years unless there is major development in the area.

VII. FUNDING PROCEDURES

The NSCP recognizes that there are budget constraints for all requests. Nevertheless, neighborhood street calming is a critical citywide concern. To implement the policies of this Program, there are several methods of funding:

- A.** City Council has allocated general capital fund dollars to the NSCP in the FY22 Approved Budget Update.
- B.** NSCP recognizes that neighborhoods that benefit from the City's general capital fund may have a role in maintaining and caring for the benefits provided.

APPENDIX 1

TRAFFIC MANAGEMENT TECHNIQUES

1. SPEED ENFORCEMENT

Information collected by speed watch programs, engineering studies, citizen referrals, and historical police records provide the basis for targeted intensive police enforcement. Although it is impractical to provide round the clock enforcement at this time, the City will continue to intensify enforcement where correctable speeding problems occur.

2. SPEED HUMPS

Speed humps are gradual changes in the roadway surface usually 22 feet long and 3 inches high. These humps differ dramatically from speed bumps that were traditionally installed on private property. Speed bumps tend to jolt a vehicle and can cause damage or loss of control if taken at excessive speed. Speed humps have little effect on a vehicle driving the speed limit but produce discomfort when the speed limit is exceeded. Speed humps are generally placed approximately 300 feet apart and require signage in each direction that warns the driver to slow down. Speed humps have shown promise nationally in reducing speed while not creating hazards to emergency response vehicles.

3. TRAFFIC CIRCLES

Traffic circles are raised concrete or landscaped islands that are placed in the center of an intersection. They require that vehicles change course while proceeding through an intersection and this generally results in a speed reduction. Intersections containing traffic circles must have adequate street lighting and signage to provide advance visibility and warning for the required change of course.

4. CHOKERS, BUMP OUTS, OR CURB EXTENSIONS

These devices narrow the pavement by widening the sidewalk area at strategic locations. They provide shorter pedestrian crossing distances and provide protection to the beginning of a parking lane. The driver also senses the roadway narrowing when approaching one of these devices, which can result in speed reduction and a sense that the driver is entering a residential area.

5. SEMI-DIVERTERS

These devices limit access to a street from one direction by blocking half of the street. They may also be constructed to limit certain movements at an intersection. Semi-diverters are generally effective in reducing traffic in the direction they block but are still able to allow emergency access.

APPENDIX 1

TRAFFIC MANAGEMENT TECHNIQUES

6. DIAGONAL DIVERTERS

These devices place a barrier diagonally across an intersection which results in the elimination of through movements and turning conflicts. The resulting intersection resembles two back-to-back curves. Diagonal diverters reduce traffic while still allowing access and circulation through the neighborhood.

7. STAR DIVERTERS

These devices are raised concrete or landscaped islands in the center of an intersection, which eliminate through movements and turning conflicts by forcing all approaching vehicles to make right turns. Star diverters reduce traffic while still allowing excess circulation through this neighborhood.

8. MEDIAN BARRIER (INTERSECTION CHANNELIZATION)

These devices are designed to eliminate certain movements by construction concrete or landscaped islands at strategic locations. Left turns are no longer possible when these items are placed down the center of a road. Installation of these devices results in a reduction in traffic, as certain movements are no longer possible.

9. PROHIBITIVE SIGNAGE

These devices include one-way signs, turn restriction signs, truck prohibition signs, etc. Their installation results in the elimination of certain traffic movements while still maintaining access for emergencies or for all vehicles at selected times of the day. They can be effective in reducing traffic and do not require the higher costs associated with the construction of concrete barriers and diverters. Stop signs are generally not installed to divert traffic or reduce speeding. National studies have shown that the use of stop signs for this purpose generally does not result in speed reduction along the entire length of the street. Additionally, when installed to reduce speeding along these signs tend to be violated regularly and increase the potential for rear end accidents.

APPENDIX 2
EVALUATION PETITION

Street Calming Program
City Hall, Suite 450
801 Plum Street
Cincinnati, Ohio 45202
Email: streetcalming@cincinnati-oh.gov

We, the undersigned are residents of _____
from _____ to _____.
We are concerned about the traffic on our street. We submit this Petition to the City of
Cincinnati for active consideration under the Neighborhood Street Calming Program. The
_____ (Representative Civic Association or
Community Council) was notified of this Petition on _____. We petition the
City for _____.

We understand that the City will, upon receipt of a valid majority petition, analyze relevant
conditions to determine the impact of the proposed action. The City must reserve the right to
overrule the petition if there are extenuating circumstances detrimental to public safety, traffic
operations, and/or neighborhood interests.
