**Fire Report – David Owens, Cincinnati Fire Dept.**

Last month was slightly busier than usual, Engine 34 had 220 runs. This week is fire prevention week. CFD highlighted safety measures for lithium batteries- purchase, storage, charging, and recycling of them.

Always purchase from a reliable source, store them in a cool and dry place, keep them out of cluttered drawers with flammable items, and do not tape the terminals together. When charging batteries, use the charger that it came with or one with compatible specifications. Avoid overcharging lithium batteries, and lastly, recycle at stores like Home Depot, Lowes, Best Buy, or find a recycling center in Hamilton County or through Earth911.

**Clifton Branch Library update - Jeanne Strauss de Groote**

Jeanne presented the Clifton Community Cookbook, a new initiative the Clifton Branch Library is starting. Clifton branch library would like any recipes from you and your family to add to a Clifton digital library community cookbook.

There is a google form that residents can submit their recipes to, but it requires a google account. You can also visit the library and they will help you scan and submit your physical copies of recipes.

-On Saturday Oct 11th from 10am to 12pm, the library is doing a recycling event with crunchy leaves sustainability. They present information on what can be recycled and how to sort recyclables.

-The library's game night is Tuesday October 14th at 6pm, Jeanne encourages adults to attend and meet their neighbors through playing board games and card games.

-An annual poetry event will be held October 21st at 6pm called Every Leaf is a Flower hosting local poets followed by an open mic session.

-Clifton Branch library is celebrating National Chemistry Week on October 23rd at 4pm. Children aged 6-12 will be welcome to participate in a hands-on chemistry demonstration hosted by the American Chemical Society.

A full list of events can be found on the Public Library's website:  
<https://cincinnati.library.bibliocommons.com/v2/events?locations=CL>

### **Clifton Recreation Center**

No representative of the CRC could be present. Jan highlighted the CRC's Halloween Carnival on October 25th. The CRC also has flyers for their fall programs at the front table during the meeting.

Another flyer for the Burnet Woods Fall Fest, on October 11th, is available for attendees of the meeting. Zach Morgan will be performing at 12:30p, there will be a puppet show at 2pm, and there will be pumpkins for all attendees to carve.

### **Treasurer's Report - Gerald Checco**

Gerald announced this would likely be his last treasurer's report. After paying Cincinnati State the \$21,000 raised from the golf outing, the balance in CTM's bank account is normal with a slight surplus from last year. The full treasurer's report will be attached to the meeting minutes below.

### **Appointing new Treasurer & Finance Co-chair - Gerald Checco**

Bridget and Robert both decided that Bridget would seek the role of Treasurer and Robert would take up the role of Finance Co-chair to split the treasurer's workload. Gerald recommended the two for those positions and motioned to appoint Bridget the Treasurer and Robert the Finance Co-chair. Kevin Mohan seconded the motion

The board voted and unanimously approved the motion to appoint Bridget to the Treasurer role and Robert to the Finance Co-chair role.

Gerald mentions that it will take another month or so to transfer the banking information over to Bridget and Robert.

### **Motion 2 Crosswalk Box Art Project - Kip Eagan**

Ben made the motion to support the crosswalk box art project. Ben mentions that crosswalk boxes are frequently tagged with graffiti. Three boxes are proposed to be painted at the following intersections: 1. Middleton and Ludlow, 2. Telford and Ludlow, and 3. Clifton and Ludlow. Each will get a painting of a historic photograph. The Motion will approve CTM to cover \$430 to wrap and decorate 1 of the 3 total crosswalk boxes.

Kip adds that this project is modelled after a crosswalk box upgrade in West Palm Beach that went over well and is beloved by the community. Gerald adds that an anti-graffiti coating on the wrap could help in mitigating any graffiti that is done to the wrapped boxes.

Gerald seconds the motion. The board unanimously approved the motion. The full motion is attached at the end of the minutes.

### **CPS Levy Update - Chara Fisher Jackson**

Chara is the executive director of the Cincinnati Pre-School Promise. They are up for a renewal of a levy that was initially passed in 2016 and renewed in 2020. The 2025 ballot will have a 10-year renewal, \$48 million per year, \$33 million going to Cincinnati Public Schools, \$15 million going to preschool expansion. It will be issue 28 on the ballot.

Q: What are the restrictions on how the money can be spent?

A: The \$15 million for preschool expansion can only be spent on new schools. The rest of the money cannot be spent on food, gift cards, awards, only educational purposes for preschoolers in the Cincinnati Public School footprint. Priority is tuition assistance, can also go to improvement of schools, equipment and supplies, and recruitment + retention for teachers.

Flyers are in the back of the room, and the Vote4CPS website has more information about the levy.

### **Committee Reports - Ben Pantoja**

Ben explains that though Off-Ludlow gallery is not a committee, he would like to give Mary-Pat time to give an update. She explains October 10th the Art of Puppets exhibit will open. There will be an artist talk on October 26th and it will close on November 12th. The exhibit will detail the artistry of puppet making including woodwork, fabric, etc.

- allowing non-resident CTM members to vote
- creating option to cancel board meeting given a 2/3 majority
- eliminating requirement of paid professional review of CTM accounting records
- adding requirement that committees must have at least 1 CTM board member
- eliminating restriction specifying that annual meeting will occur during a specific month

The document listing the changes will be attached to the minutes, and the bylaws updates can be found in September's minutes.

### **Housing & Zoning – Owen Waller**

The housing and zoning committee will be meeting next week on Monday in the Parent room across from this CTM meeting room at 6:00pm.

### **End of Committee Reports**

#### **Clifton Hillside Development Motion 1 - Ben Pantoja**

Ben begins by reading the beginning of the motion, not including technical details outlined for developers. The full motion is attached at the end of the minutes. Gerald seconded the motion.

Eric Russo from Hillside Trust states that the technical outline is a higher standard beyond the usual geotechnical review required by developers. Additionally, the requirements in the motion inject community input into the hillside development process and ask the city to give CTM the tools to guide development.

Tom Lienhart explains he has spent a lot of time talking with the city about hillside development. He mentions that it would make sense to broaden the policy to the whole city. Additionally, this motion is a means to get ahead of issues because once a slippage on a large hillside occurs it is incredibly difficult to stop.

An audience member mentioned that due to variances being granted, the impact of the overlay district is diluted. He describes the legislation in the motion as remarkable and acknowledged the residents who put it together. This

framework could be given to other neighborhoods so they can protect hillsides from development and risk of slippage.

Gerald reminds the room that CTM acted proactively 2 months ago when it sent a letter to city planning about limiting hillside development.

An audience member asked what accountability there is for the city, Gerald brought up that the spirit of the motions will clearly be reflected in the Clifton Plan, and planning will reference that document when considering issuing variances.

An audience member mentions that the Hillside Trust has been working with the city on the Hillside Initiative. During those talks this motion as well as community support for preserving hillsides will probably be discussed.

An audience member asks if members of the community could reach out to city planning and echo these concerns, the board answered a resounding yes.

Robert proposed a friendly amendment to the letter: section i had a small typo, Ben accepted the amendment.

Gerald called the question and asked for a second. Robert seconded. The board voted unanimously to approve sending the letter to planning.

### **Executive Committee Standing Rule Motion 3 - Ben Pantoja**

Ben introduces the reasoning for motion 3. Jan brought to his attention that the executive committee standing rule requires minutes be taken. Since the executive committee meets to publish the agenda, he believes it should suffice as the minutes.

Full standing rule modifications are attached below. Ben also outlined that the full agenda message brought up in the standing rule is lengthy. Additionally, Ben expressed concern of sending out too many mailchimp messages, thus the call for topics was removed.

Ben made the motion, Gerald seconded. Owen brings up that content in the agenda message that is set to be removed could be beneficial and that it could be condensed.

Bridget mentions that the call for agenda topics that is set to be removed could be considered community concerns in the agenda.

An audience member brings up that community concerns are very frequently saved until the end, when most people have left, and all concerns are not given more than 10 minutes altogether.

Gerald mentions that continuing to fine-tune the agenda announcement does not have to be included in the executive committee standing rule. Jan adds that we have never sent the paragraph thus it should probably be removed from the standing rule.

The board passed the motion unanimously. The motion carries.

### **Community Concerns – Ben Pantoja**

David Kirk, owner of DNK Architects in the audience, brought up that barricades on Kottmann prevent him and his employees from easily accessing his place of work.

Jan responded that since that is not in CTM's jurisdiction, CTM could not make that request to DOTE. Since the street is in CUF, Gerald offered to contact CUFNA, the neighborhood community council, to contact the city and remove the barricades.

The confusion stems from the city's community council map, as David was told to go to the "Clifton Heights community council," which is under CUFNA.

An audience member asks the board about streetcalming initiatives. He reports cars reach 45-50mph on Lafayette and wants a solution for the excessive speeds. This is worsened by only having one sidewalk forcing pedestrians to walk in the street in many cases.

A resident on Howell echos concerns about speeding cars and suggests that residents could get together and request speed bumps.

**Adjournment - Next CTM Board Meeting 11/10.**

Motion to adjourn called by Ben, seconded by Jan, and was unanimously approved.

The meeting was adjourned at 8:35.

Respectfully submitted,  
Owen Waller, Secretary

Decoration will be based on historical photographs of Ludlow Avenue. Total cost is \$1500 for each of the three boxes, but other sources will provide the rest of the funding.

## Motion on Specific Clifton Hillsides

- Whereas hillsides that are not developed provide green space, wildlife habitat, carbon sequestration, and erosion control, and
- Whereas there are at least 3 hillside overlay areas in Clifton that could be developed: 442 Lafayette Avenue, 3319/3321 Morrison Avenue, and the hillsides on Central Parkway, and
- Whereas development in hillside overlay districts in Cincinnati has previously sometimes led to landslides, most recently at 1001 Marshall Avenue, and
- Whereas these landslides have caused damage to green space and to properties adjacent to the developments, and
- Whereas properties adjacent to the developments must pay for expensive repairs without relief from homeowners insurance, and
- Whereas notification to the community council regarding developments often occurs too late to enable meaningful community input, and
- And whereas CTM already has the following concerns with development on the hillsides on Lafayette Avenue, Morrison Avenue, and Central Parkway:
  - All three areas include Kope Formations, a geologic structure that is especially prone to landslides
  - The Lafayette Avenue property is between Mt. Storm Park and another green space and therefore serves as an important wildlife corridor. In its current natural state, it also mutes noise from I-75, filters light pollution from the valley, and slows winter winds.
  - The Morrison property includes some slopes steeper than 30 degrees, 50% steeper than the 20 degree slope that triggers hillside protection, requiring significant retaining walls that likely would require variances
  - Two homeowners adjacent to the Morrison hillside have already had to make significant home repairs due to soil instability.
  - The Morrison hillside also has had about 1 acre of concrete debris dumped on it.
  - Development on Central Parkway would likely include the toes of the steep hillsides, and development on toes of hillsides can lead to instability of the entire hillside.

- Therefore, CTM believes that best use of these three areas is to leave them as green space and is inclined to oppose any development on these hillsides. If any developments are proposed, the following should be required:
  - a: Notice: CTM would like timely notice to provide robust community engagement.
  - b. The applicant shall make available upon request the complete geotechnical and civil design record, including: soil borings and logs; test pits; laboratory methods and results; groundwater observations; slope-stability analyses (inputs, factors of safety, and sensitivity checks); grading and drainage plans; proposed fill specifications; retaining wall/earth-retention calculations and details; road and utility plans; foundation recommendations; development plans; and any addenda or peer-review memoranda. All plans shall identify boring/test locations on a site plan and be sealed by an Ohio-licensed Professional Engineer where required.
  - c. Public availability. The City shall place the foregoing materials in the administrative file and make them reasonably available to stakeholders upon request.
  - d. Independent-review window. A reasonable period, not less than 45 calendar days from the date the administrative record is deemed complete, shall be afforded for independent geotechnical review. If materially new or revised technical materials are submitted, the review window shall be extended to allow meaningful review of the new submittals.
  - e. Site access. The applicant shall provide reasonable site access for non-destructive observation and testing reasonably indicated for independent review, subject to customary safety, scheduling, and insurance requirements.
  - f. Costs. Costs of stakeholder-initiated independent testing and review shall be borne by the requesting stakeholders unless otherwise provided by rule or agreement.
  - g. Conflicting professional opinions. If geotechnical opinions materially differ, the City's reviewing official (or geotechnical reviewer) shall issue a written determination identifying the analysis accepted in whole or in part and the reasons therefor, with reference to applicable code provisions and recognized standards (e.g., FHWA/ODOT guidance, ASCE/Geo-Institute practice), and any conditions or additional studies required

- h. Toe-of-slope coverage. Treat the toe-of-slope influence area—extending from the mapped HOD boundary downslope to the base of the hillside where grade transitions to stable terrain—as subject to HOD standards for review and approval.
- i. Adjacent-property landslide review. Before approval, staff shall verify—and sign off—that any project site less than 100' outside of a hillside overlay does not constitute a landslide area, and as such, does not contain active landslides, landslide indicators, proposed slopes over 20%, excavations greater than 12 feet in depth, structural fill in excess of five feet, earthwork area greater than two acres, any portion of the Hillside District Zoning Overlay, or toe slopes that support a portion of the Hillside District. Ensure that neighboring properties adjacent to or contiguous with the HOD receive this documentation.
  - Where the aforementioned landslide risks do exist, staff shall verify and sign off that the project has obtained applicable separate permits for retaining walls and excavation/fill areas, and that all such permits have been reviewed for and comply with applicable hillside/landslide provisions, including Landslide Indicators setback, Slope (e.g., §1113-03.5), Cut/Fill permit requirements, and related sections (e.g., §1101-19.5), for any site in, adjacent to, or downslope of the Hillside Overlay District. Ensure that properties adjacent to or contiguous with the HOD receive this documentation.
  - Where variances are proposed, Staff shall provide explicit reasons for why the site is out of character for a sensitive hillside, and why the proposed work is unlikely to be a risk to public health and safety, as well as why it is unlikely to cause damage to neighboring properties. Ensure that properties adjacent to or contiguous with the HOD receive this documentation.
- j. Parcels intersecting the HOD. Apply HOD review and standards to any lot or parcel having any portion within the mapped HOD, treating such parcel as wholly within the HOD for purposes of application submittals, technical review, and conditions of approval.
